

NOTICE ABOUT NEW FIRE TRUCK

The new fire truck and chemical engine arrived Tuesday morning.

When it is put into service, we expect to meet the fire calls more promptly and more efficiently.

This truck carries two thirty-five gallon chemical tanks capable of throwing a good stream of carbon dioxide gas for ten and one half minutes each.

In other words, after we discharge the first thirty-five gallons and start on the second thirty-five gallons, the first tank can be charged before the second tank is completely discharged. So if we can be supplied with thirty-five gallons of water every ten minutes, we can keep a continuous stream of gas mixed with water, on the fire.

In locations where there are hydrants, the chemical tanks will do the work until the hose line is connected to the hydrants and the water is on.

In locations where there are no hydrants, if the neighbors will fill their buckets with water and come to the chemical engine, we can handle quite a fire with the chemical engine only.

People who speak with authority say that chemical engine water is seven times more effective than com-

mon water is on a blaze.

The chemical tanks on this truck will throw water under sixty pounds of pressure thru a one-fourth inch nozzle.

In case of fire on College campus, phone Chapel and Power House. Power House College phone is number 11, town phone is number 187. Chapel College phone is number 13.

Tell the persons answering the phone where the fire is—make it as plain as possible. Then you will hear the signals begin next. Don't break thru doors and windows and let a draft in to encourage the fire. Keep every possible draft closed try and put any water that you have close at hand on the base of the fire.

Now it is about time for the hose and chemical engine to arrive. Don't crowd around the truck, firemen can't work thru a crowd; keep back until you are called on.

If the fire is in town, the rule applies just the same as on the campus, with the exception of the people that will bring the water to the chemical engine in the buckets. The fire truck carries ten three-gallon buckets to help carry water with. It also carries one 24-foot extension ladder, one 12-foot roof ladder and axes, crowbar, ropes and many other use-

ful fire-fighting appliances.

This new truck will be located under Williams Building, just west of the Power House bridge.

We have no paid firemen, so the College will have eight or ten boys trained to handle the truck in case of fire. We also will be pleased to instruct a number of town folks to handle the truck. In case of fire, the first one there will be the one to take it out providing he knows how to run a Ford car.

This outfit cost \$2600.00 and we want it to look as good in ten years as it does now. Be ready to cooperate with us.

A. PRUITTE SMITH,
Fire Chief

5 Taps—Log House, Kentucky and Talcott Hall, Cumberland, Blue Ridge, Hospital, Farm Barns.

6 Taps—East End Town.
7 Taps—West End Town.

MORE AIRCRAFT IS URGED

General Pershing Would Have America Prepared to Take Immediate Defensive.

Washington, Dec. 9.—Expansion of the army air service to the point where America would be prepared to "take the immediate defensive," and ultimately the offensive, is urged by General Pershing in his annual report as chief of staff of the army.

The air service, which General Pershing described as vital to the army, at present is inadequate and lacking in facilities, he declared.

IRISH DEPUTY IS KILLED

Another Wounded—Men Attacked in Street While on Their Way to Parliament.

Dublin, Dec. 8.—Announcement was made in parliament Thursday afternoon by President Cosgrave that Deputy Sean Hales had been shot and killed and Deputy Patrick O'Maille, who was deputy speaker, had been wounded on their way to parliament. O'Maille's wound is serious.

Stockholder's New Customers Contest

Contest Opened July 6, 1922, Closes January 6, 1923

PRESENT STANDING

Reds, Flanery, Captain, 51,051 points New customers, 175
Blues, Arnett, Captain, 49,380 points New customers, 171
Total new customers, 346

Losing side pays for banquet at Boone Tavern

Rules of the contest: one new customer with an opening deposit of \$50.00 counts 100 points, with one point additional for each additional dollar in opening deposit.

Money transferred from other banks, Liberty Bonds and War Savings Stamps deposited count when deposited by either new or old customers.

Remember this bank pays 4% interest on time deposits and savings accounts, compounds the interest twice per year and pays the taxes on it.

TREMBLING LIPS

APPEAL TO YOU

Members of all denominations, lodges, American Legions, War Mother's Clubs, etc., highly endorse the work of the Salvation Army as well as its appeals.

Several days ago, Mr. Charles Mohr, many years on the staff of the Cincinnati Enquirer, paid Berea a visit in the interest of the Army. "I've seen many a campus and colleges," said the scribe, "forever I'll take my hat off to Berea."

"My visit to Berea," he said, "is to give the citizens and students a chance to help the Salvation Army Home Service appeal for Kentucky. The appeal is to be made thru the mail for Madison county."

J. D. Goodloe, County Judge, is the chairman; L. W. Dunbar, Secretary of the Chamber of Commerce, secretary; and W. E. Turley, Cashier of the State Bank and Trust Co., treasurer of the funds.

The Army turns no one down. It is the Army's motto. It never forgets the poor children on Xmas. It uplifts fallen women. The Army is on the job all the time. Rain, cold, sleet or snow does not stop them. Its nurseries are huge. Its doors are open to the needy.

Soldiers Praise Army:
The brave boys who were in the World War are for the Army to the man. You no doubt had a son in the war, relative or friend. They, no doubt, have told you how the Salvation Army stood by their sides in the firing lines, hospitals, etc.

Many wrote these words home to their mothers: "Never pass by the Salvation Army without giving."

So let us remember these words and help make the fund of Madison county a large one. It is for a worthy cause and poor of Kentucky.

Mr. Mohr asks the ministers of the county to make announcements of the appeal from their pulpits, which will be appreciated by the Army.

Ministers of Berea are requested to say a few kind words for the appeal from the pulpit as soon as the appeals go out.

Speaking of impostors, Mohr said; "The Salvation Army makes but one appeal annually. It has abandoned the old mode of campaigning or soliciting," he said.

"A certain large blonde woman has solicited funds in Kentucky under the pretense of being a Salvation Army. She has no connection with the Army. The Army has no one soliciting in uniform," he added.

There are a number of other alleged organizations who solicit funds in uniform, and have no connection with the Salvation Army. It is hoped the citizens of Berea will do their bit so the Army can continue its good work.

NAVY UNDER ONE COMMAND

Department Announces General Order, Approved by the President, for New Organization.

Washington, Dec. 8.—The Navy department announced a general order putting into effect a plan for organization of the navy under one commander in chief.

The fleet is organized under the title "The United States Fleet" and is divided into four sections, the battle fleet, the scouting fleet, the control force and the fleet base force.

STUDENTS, ALUMNI, FRIENDS

This is to announce that Berea College this year will publish a first-class College Year Book, "The Chimes." It seems very fitting that we have this privilege, since the College is growing so rapidly. Only three or four years ago there were only about four in the graduating class who received the A.B. degree. Last year twenty-five received this degree, and this year, 1922-23, about forty graduates will receive the above mentioned degree. Draw your own conclusions.

The past two years Berea had the honor of furnishing the winners—Mr. W. O. Keller and Mr. John Welsh—of the Kentucky State Oratorical Contest. Last year was our first year in Inter-Collegiate debate. Altho we lost one, nevertheless it was a good record for the first year. In Inter-Collegiate athletics—basket ball and track—we made mighty good records, taking all things into consideration.

Now we are abreast of other colleges in these respects. Only one feature has been lacking, as I see it—that is a good Year Book representative of Berea student life and activities, in which all these good records may be recorded and kept. This year we are to have a good one. If you don't think so, just ask Bush-Krebs Co. about it. Find out what your old Alma Mater is doing in modern school days.

We wish to thank Mr. Thoma for the ad. he gave us. Also all the other business houses of the town who give us ads. for "The Chimes." While we remain with you, we will patronize your business, recommend you to others, especially those who take our places. We will get a double edition of our ad. pages, one we will post in town for the benefit of those who give us ads., while the other will go into "The Chimes"—a neat bound book, on good paper and in good style, which will be preserved for thousands to look at, and not a cobble mess fit for the waste basket. We are behind our advertisers, and we will show you we are in a very short time.

THE CHIMES,

William Rossie,
Business Manager

BLUE SKY LAW IS URGED

Need of Protecting Public When Government Securities Mature Stressed in Senate.

Washington, Dec. 8.—Speedy passage of the so-called blue sky bill, designed to regulate interstate sale of securities, was urged before the senate interstate commerce committee, by Director G. A. Canright of the Wisconsin Securities board, to protect the holders of war certificates and liberty bonds.

Expense Cut Urged

Washington.—Methods by which it costed \$700,000,000 could be saved annually were urged upon the Government in resolutions adopted by the annual convention of the Civil Service Reform League. As much as a quarter of the annual expense of the Government, it was stated, could be eliminated, by abolishing "useless" jobs, dismissing incompetents, providing adequate pay for adequate work, introducing modern methods and promoting only the most capable workers.
